

KSEIBI 20V Cordless 125mm Random Orbit Sander Bare Unit

Cordless sanding with controlled finishing

Kseibi · 710230

Highlights

- 20V cordless freedom for sanding anywhere
- 125 mm sanding disc suits common finishing tasks
- Variable 6000-12000/min sanding movements
- 2 mm orbit helps balance finish and control
- Random orbit action for smoother surface prep
- Bare unit supplied without battery or charger
- Dust bag fitted for debris collection
- Compact top-grip design for guided control
- Suitable for wood, paint and filler prep
- Ideal for workshops, site work and home projects

Key Features

- Cordless 20V convenience — Work around furniture, doors, trim and jobsite areas without the restriction of a power cord.
- 125 mm disc format — Uses a practical 125 mm sanding disc size for everyday surface preparation and finishing work.
- Variable sanding speed — Sanding movements from 6000-12000/min let you adapt the action to the task and surface.
- 2 mm random orbit — The 2 mm sanding orbit supports controlled material removal with a clean finishing result.
- Integrated dust collection — The fitted dust bag shown in the image helps capture sanding dust for a tidier work area.
