

Kseibi 20V Cordless Finishing Sander Bare Unit

Cordless control for clean finishing work

Kseibi · 710232

Highlights

- 13000 sanding movements per minute for efficient finishing
- 90 x 187 mm sanding surface suits flat workpieces
- Uses 93 x 230 mm sanding sheets
- 2 mm sanding orbit supports controlled surface refinement
- Cordless design offers freedom to move around the job
- Bare unit supplied without battery or charger
- Rectangular base is ideal for panels, doors and furniture
- Top handle with textured grip aids comfort and control
- Rear dust bag helps capture sanding debris
- Good choice for prep before paint, stain or sealing

Key Features

- Cordless finishing freedom — Work without trailing cables when sanding furniture, trim, doors and other flat surfaces.
- Controlled sanding action — With 13000 sanding movements per minute and a 2 mm orbit, it is designed for smooth, even finishing work.
- Practical sanding size — The 90 x 187 mm sanding surface balances coverage and control for a wide range of prep tasks.
- Comfortable handling — The top handle and textured grip areas shown in the image help you guide the tool with confidence.
- Bare unit convenience — Supplied without battery and charger, ideal for users already invested in a compatible 20V system.
