

Kseibi KWS 20V-125 Cordless 125mm Angle Grinder Bare Unit

Cordless cutting and grinding, ready when you are

Kseibi · 710239

Highlights

- 20V cordless angle grinder for flexible jobsite use
- 10000 rpm no-load speed for fast material removal
- Takes discs up to 125 mm diameter
- M14 spindle thread suits common accessory fitments
- Bare unit supplied without battery or charger
- Side handle helps improve control during use
- Protective guard supports safer cutting and grinding
- Compact body helps access tighter working areas
- Ideal for cutting, grinding and surface prep tasks
- No cord to restrict movement around the work area

Key Features

- Cordless 20V freedom — Work without trailing cables or searching for power points, making the tool easier to use on site, in the workshop or around the property.
- 10000 rpm no-load speed — High no-load speed helps the grinder tackle cutting and grinding jobs quickly, supporting efficient progress on routine metalworking tasks.
- 125 mm disc capacity — Designed for discs up to 125 mm, giving you a practical size for a wide range of cutting, grinding and cleanup applications.
- M14 spindle thread — The M14 spindle thread provides compatibility with suitable accessories made for this common grinder fitting.
- Bare tool format — Supplied without battery or charger, making it a smart choice for users who already own compatible 20V power system components.
