

Kseibi 20V Max Cordless Glue Gun for 11 mm Sticks, Bare Unit

Cordless hot glue, ready in 180 seconds

Kseibi · 710246

Highlights

- 20 V Max cordless glue gun for portable use
- Warms up in 180 seconds for faster starts
- Compatible with Ø11 mm glue sticks
- Bare unit supplied without battery or charger
- Cordless design helps you work without mains leads
- Trigger-feed format supports controlled glue flow
- Compact body is easy to position in tight spaces
- Suitable for repairs, crafts and workshop tasks
- Grip design helps comfortable handling
- A practical addition to an existing Kseibi cordless kit

Key Features

- Cordless convenience — The 20 V Max platform design lets you work without a power cord, making it easier to move around the home, workshop or jobsite.
- Fast warm-up — With a 180-second warm-up period, the glue gun reaches working readiness quickly for less downtime before you start bonding.
- 11 mm stick compatibility — Designed for Ø11 mm glue sticks, it suits a widely used glue size for general DIY, repair and craft applications.
- Controlled handling — The pistol-grip body and trigger-style feed help you hold the tool securely and apply glue with more control during use.
- Bare unit flexibility — Supplied without battery or charger, it is ideal for users who already have compatible Kseibi 20 V Max power tool batteries.
