

Kseibi KCG 20V-300 Cordless Sealing Gun Bare Unit

Cordless control for cleaner sealant application

Kseibi · 710248

Highlights

- 20V Max cordless sealing gun for flexible working
- Bare unit supplied without battery or charger
- 300 mm length suits common sealing applications
- Adjustable feed speed from 30 to 480 mm/min
- Powered dispensing helps reduce hand fatigue
- Ideal for windows, doors, kitchens and bathrooms
- Trigger grip supports controlled sealant delivery
- Open frame design helps support the cartridge
- Cordless design is convenient for site and home use
- Built for smoother, more consistent bead application

Key Features

- 20V Max Cordless Freedom — Work without trailing cables and move easily around interior rooms, exterior frames and jobsite areas.
- Controlled Variable Speed — Adjust output from 30 to 480 mm/min to better suit delicate finishing or longer sealing runs.
- 300 mm Capacity — The 300 mm length is designed for standard sealing tasks, giving practical compatibility for everyday use.
- Reduced Effort Application — Powered dispensing helps take strain out of repetitive sealant work compared with a manual gun.
- Bare Tool Convenience — Supplied without battery or charger, making it a smart addition for users already on a compatible 20V Max platform.
