

Kseibi 20V Max Cordless Blower 230 km/h Bare Tool

Fast cordless clearing power

Kseibi · 710256

Highlights

- 20V Max cordless blower for flexible use
- Blowing air flow up to 230 km/h
- 45 mbar suction power for added versatility
- Bare tool supplied without battery and charger
- Long nozzle helps target airflow precisely
- Compact handheld design for easy control
- Ideal for garages, workshops and outdoor areas
- Useful for leaves, dust, dirt and sawdust
- Cord-free operation for quick grab-and-go jobs
- Stable base shape helps when setting the tool down

Key Features

- Strong airflow output — Delivers blowing air flow up to 230 km/h to clear dust, leaves and loose debris quickly.
- Cordless 20V Max platform — Runs on a 20V Max battery system, giving you freedom to move without trailing cables.
- Bare tool format — Supplied without battery and charger, making it a practical choice for existing compatible users.
- Added suction capability — Offers 45 mbar suction power to support a wider range of cleaning and maintenance tasks.
- Compact directional nozzle — The long nozzle design helps focus air where it is needed for more controlled clean-up work.

Specifications by Variant
