

Kseibi KLB 20V-155 Cordless Leaf Blower Bare Unit

Cordless clean-up with focused blowing power

Kseibi · 710286

Highlights

- 20 V Max cordless leaf blower for flexible outdoor use
- Bare unit supplied without battery or charger
- Blow speed up to 155 km/h for effective clearing
- Air volume up to 528 m³/h moves leaves and debris
- Long nozzle helps target airflow where needed
- Handheld design for quick grab-and-go clean-up
- Ideal for paths, patios, driveways and garden edges
- Useful for leaves, grass clippings, dust and light debris
- Cord-free operation helps you move freely outdoors
- Compact body is easy to store between jobs

Key Features

- Cordless 20 V Max platform — Battery-powered operation lets you clean outdoor areas without trailing cables or searching for a power outlet.
- 155 km/h blow speed — Strong air velocity helps shift leaves and loose debris quickly from hard surfaces and garden edges.
- 528 m³/h air volume — High airflow output supports efficient clearing over wider areas, reducing the time spent on routine tidy-ups.
- Long directional nozzle — The extended tube helps focus airflow for better control when working along paths, borders and corners.
- Bare-unit value — Supplied without battery and charger, making it a practical choice for users who already own compatible power components.

Specifications by Variant

Specification	710286
Voltage	20 V Max
Blow speed	155 km/h
Air volume	528 m³/h

Battery

Bare only without battery and charger
