

Kseibi KAC 20V-20 20V Cordless Ash Vacuum Cleaner Bare Unit

Cordless ash clean-up made practical

Kseibi · 710294

Highlights

- 20 V Max cordless ash vacuum for unrestricted cleaning
- Bare unit supplied without battery or charger
- 20 l container handles larger ash clean-up jobs
- 80 mbar suction power for effective ash collection
- 1 m hose gives practical reach into work areas
- 36.5 mm hose diameter supports steady debris flow
- Top carry handle makes transport easier
- Pleated filter shown for handling fine ash particles
- Side latches help keep the container securely closed
- Ideal for fireplaces, stoves, fire pits and BBQs

Key Features

- Cordless 20 V Max operation — Move freely around fireplaces, stoves and outdoor cooking areas without managing a power cord.
- Large 20 l container — The generous collection volume lets you tackle more ash before stopping to empty the vacuum.
- 80 mbar suction performance — Provides the suction needed for practical ash pick-up during routine maintenance and clean-out.
- Useful hose reach — A 1 m suction hose with a 36.5 mm diameter helps you reach into openings and awkward spaces.
- Bare unit for existing users — A smart choice if you already own compatible Kseibi 20 V Max batteries and chargers.

Specifications

Filter included	Pleated cartridge filter shown
