

## Kseibi 20V Max Brushless Cordless Polisher/Sander 180mm Bare Unit

Cordless control for polishing and sanding

Kseibi · 710342

### Highlights

- 20 V Max cordless tool for flexible, cable-free working
- Brushless motor supports efficient finishing performance
- 180 mm pad covers wide areas with fewer passes
- Variable no-load speed from 500 to 3000/min
- Suitable for polishing, sanding and surface prep
- M14 spindle thread for compatible accessory fitting
- Bare unit supplied without battery or charger
- Side handle helps improve grip and control
- Wide backing pad supports stable surface contact
- A practical addition to an existing 20 V Max setup

### Key Features

- Brushless cordless performance — Combines 20 V Max cordless convenience with a brushless motor for efficient polishing and sanding without the restriction of a power cord.
- Large 180 mm pad — The 180 mm pad diameter is suited to broad working areas, helping you cover more surface in less time on larger finishing jobs.
- Variable speed control — A no-load speed range of 500-3000/min gives you the flexibility to choose a slower or faster setting to suit the task.
- M14 accessory connection — The M14 spindle thread supports fitting of compatible accessories, making the tool adaptable for different polishing and sanding setups.
- Bare unit value — Supplied without battery and charger, this version is ideal for users who already own compatible 20 V Max power sources.
