

Kseibi 4V Cordless Screwdriver 1/4in

Compact cordless fastening made easy

Kseibi · 710400

Highlights

- 4 V cordless screwdriver for everyday fastening tasks
- Delivers up to 5 Nm max torque on hard joints
- 200 rpm no-load speed for controlled screwdriving
- 1/4in hex drive for quick, simple bit changes
- Compact pistol-grip design for easy handling
- Textured grip helps improve comfort and control
- Useful for assembly, repairs and maintenance work
- 3 hour charging time for convenient top-ups
- Cordless format helps in tight and awkward spaces
- Includes accessory set shown in the product image

Key Features

- Compact 4V performance — The 4 V motor provides practical cordless power for routine fastening, repairs and light assembly work.
- 5 Nm max torque — Up to 5 Nm max torque on hard joints helps drive screws with controlled, reliable fastening force.
- 200 rpm no-load speed — A no-load speed of 200 rpm gives a balanced pace for steady driving without feeling too aggressive.
- 1/4in hex drive — The 6.35 mm hex drive fits standard 1/4in bits for convenient changes across different screw types.
- Ready-to-use accessory pack — The product image shows multiple bits, attachments and a charger, giving you a versatile setup from the start.
