

Kseibi 7.2V Cordless Tile Vibrator Suction Cup 120mm

Lift, place and bed tiles with cordless control

Kseibi · 710430

Highlights

- 7.2V cordless tile vibrator for flexible on-site use
- 120 mm suction pad grips tile surfaces securely
- Maximum lifting weight up to 25 kg
- Vibration range from 5000 to 18000 /min
- Helps settle tiles into adhesive more evenly
- Supports precise positioning before adhesive sets
- Useful for lifting, placing and adjusting tiles
- Trigger-style control for confident handling
- Compact body for close control on the tile face
- Supplied with a BMC box for storage and transport

Key Features

- Cordless 7.2V operation — The 7.2 V cordless design helps you move freely around the job without the restriction of a power cable.
- Integrated suction pad — A 120 mm pad grips the tile surface for lifting, placing and repositioning during installation.
- Adjustable vibration output — Vibrating movements from 5000 to 18000 /min help settle tiles into adhesive and support improved contact.
- 25 kg lifting capacity — Built to handle tiles up to a maximum lifting weight of 25 kg for practical support on demanding installs.
- BMC box included — Comes with a BMC box to keep the tool protected, organised and ready for transport between jobs.

Specifications
