- 4.0Ah capacity supports longer working runtime
- 20V Max battery for cordless tool convenience
- Built-in power indicator shows charge status
- Ideal as a spare, backup, or replacement battery
- Slide-on pack design for secure tool connection
- Compact battery format for easy handling
- Quick-release tab helps with fast battery swaps
- Suitable for workshop, maintenance, and DIY use
- Designed to match the Kseibi cordless system

Key Features

- 20V Max Platform Fit — Made for all Kseibi 20V Max FLEXPOWER models, so it integrates easily with your compatible cordless tools.
- 4.0Ah Capacity — The 4.0Ah battery capacity helps provide the runtime needed for extended jobs and repeated everyday use.
- Power Indicator Included — A built-in indicator lets you check remaining charge quickly, helping reduce interruptions during work.
- Secure Slide-On Design — The battery housing uses a slide-on connection style for a firm fit and straightforward battery installation.
- Useful Spare or Replacement — Well suited as an extra battery for rotation on longer tasks or as a replacement pack for your existing setup.
