

Kseibi FLEXPOWER 20V Max 8.0Ah Lithium-Ion Battery Pack

Longer Runtime for Kseibi 20V Max Tools

Kseibi · 710608

Highlights

- 20V Max battery pack for Kseibi FLEXPOWER tools
- 8.0Ah capacity for longer cordless runtime
- Lithium-ion design for reliable portable power
- Compatible with all 20V Max FLEXPOWER models
- Built-in power indicator for quick charge checks
- Ideal as a primary pack or spare battery
- Slide-on battery format for secure tool fitment
- Durable housing suited to workshop and site use
- Helps reduce downtime on demanding tasks
- Compact pack shape for easy handling and storage

Key Features

- 20V Max FLEXPOWER Compatibility — Designed for use with all Kseibi 20V Max FLEXPOWER models, making it a convenient power source across the platform.
- 8.0Ah High-Capacity Output — The 8.0Ah battery capacity supports longer run time, helping you work for extended periods with fewer battery changes.
- Lithium-Ion Battery Technology — Lithium-ion construction provides cordless convenience in a compact, easy-to-install battery pack format.
- Integrated Power Indicator — A built-in power indicator lets you check battery status quickly, so you can manage charge levels before starting the next task.
- Job-Ready Pack Design — The sturdy outer housing and slide-on connection are built for everyday use in DIY, workshop and professional tool setups.
