

Kseibi 450W 10mm Keyed Electric Drill

Compact corded drilling with secure keyed control

Kseibi · 710708

Highlights

- 450W motor for routine drilling and repair work
- Variable no-load speed from 0 to 3300 rpm
- 10mm keyed chuck for secure bit retention
- Corded design for continuous power on the job
- Compact body supports easy handling and control
- Suitable for workshop, site and home projects
- Trigger-controlled speed for better drilling accuracy
- Runs on 220-240V, 50-60Hz mains power
- Includes chuck key for tightening the chuck
- Spare carbon brushes visible for maintenance support

Key Features

- 450W Corded Performance — Delivers steady drilling power for everyday tasks without the downtime of battery charging.
- Variable Speed Control — A 0-3300 rpm no-load speed range helps you match drilling speed to the job and material.
- 10mm Keyed Chuck — The keyed chuck provides a firm, reliable hold on bits for confident drilling performance.
- Compact, Practical Design — The compact drill body and pistol-grip form make it easier to guide the tool in routine work.
- Ready for Ongoing Use — The image shows a supplied chuck key and spare carbon brushes for setup and maintenance convenience.
