

Kseibi 2.5T Hand Pallet Truck 550 x 1150 mm

Built to Move 2.5 Tons with Confidence

Kseibi · 710802

Highlights

- Rated load capacity of 2500 kg for heavy pallet handling
- 550 x 1150 mm forks suit standard pallet movement tasks
- Maximum lifting height of 190 mm for easy load transport
- Q235 steel plate body built for repeated daily use
- 3.5 mm and 3.75 mm steel sections after powder coating
- Full-length L-shaped steel reinforcing ribs add fork strength
- 30 x 30 x 3 adjustable square tube push rod
- Rubber wheels help provide smooth rolling performance
- Black rubber-coated handle improves grip and control
- Forklift orange finish offers clear workplace visibility

Key Features

- 2500 kg load capacity — Handles demanding pallet transport tasks with a rated load of 2500 kg for warehouses, stores and work areas.
- Reinforced steel fork structure — Two full-length L-shaped steel tube ribs reinforce the forks for added strength during repeated load handling.
- Q235 steel body — Constructed from Q235 steel plate with 3.5 mm and 3.75 mm sections after powder coating for a robust build.
- Practical handling control — A black rubber-coated handle supports a secure grip when pulling, steering and positioning loaded pallets.
- Warehouse-ready fork dimensions — The 550 mm fork width and 1150 mm fork length are sized for everyday pallet moving applications.
