

Kseibi 710W 13mm Impact Drill

Controlled power for everyday drilling

Kseibi · 710810

Highlights

- 710W corded impact drill for continuous runtime
- 13mm chuck suits a wide range of common drill bits
- Variable speed helps improve control and clean starts
- No-load speed range: 0–2,600 rpm
- Impact rate up to 41,600 bpm
- Drills timber up to 25 mm
- Drills aluminium up to 13 mm
- Auxiliary side handle supports steadier two-hand use
- Depth stop rod helps repeat drilling depth more accurately
- Keyed chuck design offers secure bit tightening

Key Features

- 710W corded performance — Delivers consistent power for longer jobs without the interruptions of battery charging.
- Variable speed control — Adjust the drilling speed to suit the task for better control, smoother starts and cleaner results.
- Impact drilling capability — Combines rotary drilling with an impact rate of 0 - 41,600 bpm for tougher drilling applications.
- Supportive two-hand handling — The auxiliary side handle shown in the image helps improve grip, balance and control during use.
- Useful capacity for common materials — Designed to drill up to 25 mm in timber and up to 13 mm in aluminium for versatile day-to-day work.

Specifications

Chuck type	Keyed
Power source	Corded
Depth stop	Included

Auxiliary handle	Included
Carbon brushes	Included
Chuck key	Included

Specifications by Variant

Specification	710810
No-load speed	0 – 2.600 rpm
Impact Rate	0 - 41.600 bpm
Variable speed	Available
Drilling Capacity Timber	25 mm
Drilling Capacity Aluminium	13 mm
