

Kseibi KSH 4-28 SDS-Plus Rotary Hammer 28mm 1050W

Built for concrete drilling and chiselling

Kseibi · 711040

Highlights

- 1050W rotary hammer for concrete and masonry work
- SDS-Plus tool system for quick bit changes
- 4.5 J impact force for effective drilling performance
- Up to 28 mm drilling capacity in concrete
- 950 rpm no-load speed for controlled operation
- Maximum impact rate of 4250 /min
- Auxiliary side handle supports better control
- Textured rear grip helps steady handling
- Supplied with accessories shown in the image
- Carry case included for transport and storage

Key Features

- Strong impact performance — Delivers 4.5 J impact force to help drill into concrete and tackle tougher masonry applications with confidence.
- Built for concrete drilling — Offers a drilling capacity in concrete of up to 28 mm, making it suitable for anchors, fixings and renovation work.
- SDS-Plus convenience — The SDS-Plus interface allows fast, secure accessory changes so you can switch between tasks with less downtime.
- Controlled handling — A side handle and ergonomic rear grip design help improve stability, control and comfort during demanding jobs.
- Accessory-ready kit — The image shows useful included accessories such as drill bits, chisels, a chuck adapter, depth rod and a carry case.
