

Kseibi KWS 24-230 230mm Angle Grinder 2400W

Full-size power for tough cutting and grinding

Kseibi · 711963

Highlights

- 2400W motor for demanding cutting and grinding tasks
- 230mm max disc diameter for larger-format applications
- 6500 rpm no-load speed for effective material removal
- M14 spindle for compatible professional accessories
- Ø22 mm arbor supports the correct disc fitment
- Auxiliary side handle helps improve control and stability
- Large guard adds protection during grinding and cutting
- Rear handle design supports secure two-handed operation
- Suitable for workshop, fabrication and site use
- 220-240V, 50-60Hz input for standard mains power

Key Features

- 2400W heavy-duty motor — Delivers the power needed for demanding grinding and cutting work in workshops, fabrication settings and on-site applications.
- 230mm disc capacity — Takes a maximum 230mm disc, making it a strong choice for larger jobs that need the reach and coverage of a full-size grinder.
- Controlled handling — The auxiliary side handle and rear grip layout shown help you maintain a steadier two-handed hold during tougher tasks.
- Accessory compatibility — Fitted with an M14 spindle and Ø22 mm arbor to work with the appropriate accessories for this grinder format.
- Protective guard design — The large fitted guard shown helps support safer operation by shielding the working area during cutting and grinding.
