

Kseibi KGS 600-6 L 600W Die Grinder

Power and control for detailed grinding

Kseibi · 712205

Highlights

- 600W motor for consistent corded performance
- Variable no-load speed from 3000 to 26000 rpm
- Compatible with 3 mm and 6 mm collets
- Slim straight-body design supports precise control
- Well suited to grinding, deburring and shaping
- Extended front section helps access tighter areas
- Ventilated housing supports airflow during use
- Ideal for fabrication, maintenance and finishing
- Runs on 220-240V, 50-60Hz power supply
- Includes spanners for accessory changes

Key Features

- 600W corded power — Delivers steady electric performance for repeated grinding and finishing tasks without battery downtime.
- Wide speed range — No-load speed from 3000 to 26000 rpm helps you adapt the tool to different materials and levels of material removal.
- Dual collet compatibility — Accepts 3 mm and 6 mm collets for flexibility with different accessories and workshop setups.
- Straight grinder format — The slim inline body and extended nose help improve control for detail work and access in narrower areas.
- Workshop-ready setup — Designed for 220-240V, 50-60Hz power and shown with spanners for straightforward accessory changes.

Specifications

Includes	2 spanners
Housing colour	Black and grey
Switch colour	Orange

Specifications by Variant

Specification	712205
Input voltage	220-240/50-60Hz
Input	600 W
No-load speed	3000-26000 rpm.
Collet diameter	3 MM / 6 MM
