

Kseibi 200mm 350W Bench Grinder

Reliable grinding power for the everyday workshop

Kseibi · 712420

Highlights

- 350W motor for everyday grinding and sharpening tasks
- 200mm wheel size for a broad, practical working surface
- 2950/min no-load speed for efficient material removal
- Twin-wheel design supports workshop versatility
- Adjustable work rests help improve control and accuracy
- Transparent eye shields maintain visibility while working
- Protective wheel guards help contain debris
- Front-mounted power switch is easy to reach
- Bench-mounted format offers stable operation
- Suitable for sharpening, shaping and surface cleanup

Key Features

- 350W workshop motor — Provides dependable power for regular grinding, sharpening and maintenance work without overcomplicating your bench setup.
- 200mm grinding wheels — The 200 x 20 x 12.7mm wheel size offers useful capacity for handling tools, metal edges and general workshop components.
- 2950/min no-load speed — High no-load speed supports smooth grinding action and effective material removal for routine bench tasks.
- Controlled working position — Adjustable work rests help support the material at the wheel, making it easier to guide jobs with confidence.
- Visible, guarded operation — Wheel guards and clear eye shields combine protection with a clear line of sight to the grinding area.
