

KSEIBI 260W 1/4 Sheet Sander

Controlled sanding for smooth finishes

Kseibi · 712800

Highlights

- 260W motor for dependable everyday sanding
- 13,000 sanding movements per minute for fast finishing
- 110 x 100 mm sanding surface suits flat-area work
- 1.6 mm orbit supports smooth, even results
- 1/4 sheet format for convenient abrasive changes
- Square pad reaches corners and straight edges easily
- Compact palm-style body for controlled handling
- Dust bag helps collect debris while you work
- Clamp system secures sanding sheets in place
- Ideal for wood, filler, paint prep and refinishing

Key Features

- 260W corded performance — Powered for steady sanding on common preparation and finishing tasks around the workshop, home or jobsite.
- Fast sanding action — With 13,000 sanding movements per minute, it works quickly across surfaces while maintaining control.
- 1/4 sheet sanding format — Designed to use 1/4 sheet abrasives, making it a practical choice for regular sanding and finishing work.
- Square base for precise access — The rectangular sanding pad helps you work into corners, along edges and across flat panels with accuracy.
- Dust bag included — The rear-mounted dust bag supports cleaner working conditions by collecting sanding dust as you go.
