

Kseibi 240W 1/3 Sheet Finishing Sander

Smooth finishing with controlled flat sanding

Kseibi · 712805

Highlights

- 240W corded finishing sander for consistent workshop power
- 1/3 sheet design suits common 93 x 230 mm sanding sheets
- 90 x 187 mm sanding surface covers flat areas efficiently
- 14000-26000 sanding movements per minute for versatile finishing
- 2 mm sanding orbit supports a smooth surface finish
- Rectangular base helps sand along edges and into corners
- Integrated dust box helps collect sanding debris while you work
- Large top grip supports stable one or two-handed control
- Good for furniture, trim, doors, panels and paint prep
- 220-240V, 50-60Hz operation for everyday site or workshop use

Key Features

- 1/3 Sheet Sanding Format — Uses 93 x 230 mm sanding sheets in a practical 1/3 sheet size that is easy to source and simple to change.
- Controlled Finishing Action — A 2 mm sanding orbit is suited to fine surface preparation, helping you smooth wood, filler and coated surfaces with good control.
- Adjustable Sanding Speed Range — With 14000-26000 sanding movements per minute, it can handle light material removal as well as final finishing passes.
- Flat Rectangular Base — The 90 x 187 mm sanding surface is well suited to broad flat areas, straight edges, frames and corner-adjacent work.
- Integrated Dust Collection — The rear-mounted dust box helps capture sanding dust at the tool for a tidier workspace and clearer view of the surface.
