

# Kseibi KDS 75-225 V Drywall Sander 225mm 750W

**Long-Reach Sanding for Walls and Ceilings**

Kseibi · 712910

## Highlights

- 750W drywall sander for walls and ceilings
- Variable no-load speed from 1000-2100/min
- 215 mm sanding disc for wide surface coverage
- Uses Velcro 225 mm sanding sheets
- Long-reach design helps with overhead sanding
- Suitable for drywall, plasterboard and filler prep
- Quick abrasive changes with hook-and-loop backing
- Includes carry bag for transport and storage
- Image shows hose connection and accessory set
- Designed for renovation, decorating and finishing work

## Key Features

- 750W Motor Performance — Delivers the power needed for efficient sanding across large wall and ceiling areas during drywall and finishing work.
- Variable Speed Control — No-load speed range of 1000-2100/min lets you adapt the sanding action to material removal and surface finishing needs.
- Large Sanding Format — The 215 mm sanding disc and Velcro 225 mm sanding sheets support broad coverage and fast progress on big surfaces.
- Long-Reach Layout — The extended body shown in the image helps improve access to high or wide areas and supports more comfortable overhead work.
- Carry Bag Included — Supplied with a carry bag to make transport, storage and job-to-job organisation easier.

## Specifications

Accessory set visible

Sanding sheets, hose, connectors, carry bag
