

Kseibi KSG 110-80 Electric Paint Spray Gun 800ml

Smooth spraying, simple control

Kseibi · 714405

Highlights

- 800 ml tank supports longer spraying between refills
- Max flow rate of 300 ml/min for efficient coverage
- 0.8 mm nozzle helps deliver controlled application
- Handles coatings up to 60 din/sec max viscosity
- 220-240V, 50-60Hz mains-powered operation
- Compact handheld format for easy manoeuvrability
- Trigger grip design supports comfortable handling
- Semi-opaque container helps monitor paint level
- Suitable for paint and decorating tasks around the home
- Balanced body design helps with steady spraying control

Key Features

- 800 ml Paint Tank — The large-capacity container lets you work longer before refilling, helping maintain momentum on decorating and touch-up jobs.
- 300 ml/min Max Flow — Provides a steady output for faster coverage on small to medium surfaces where brush and roller work can take more time.
- 0.8 mm Nozzle — Designed for controlled paint delivery to help achieve even application across compatible coatings.
- Supports Up to 60 din/sec — Handles coatings up to the stated maximum viscosity, giving flexibility for a range of suitable paint and finishing tasks.
- Compact Electric Handheld Design — The lightweight-style pistol-grip layout and onboard paint cup make it easier to direct spray where you need it.

Specifications

Colour	Grey, black and orange
Container type	Semi-opaque bottom-mounted paint cup
Power connection	Corded

Specifications by Variant

Specification	714405
Input voltage	220-240/50-60Hz
Max flow	300 ml/min
Max viscosity	60 din/sec
Tank volume	800 ml
Nozzle	Φ 0.8 mm
