

Kseibi KSG 400-80 Electric Paint Spray Gun 1300ml

Spray faster with smoother coverage

Kseibi · 714410

Highlights

- Up to 800 ml/min max flow for efficient coverage
- 1300 ml tank helps reduce refill interruptions
- Handles coatings up to 60 din/sec viscosity
- Includes 1.8 mm and 2.6 mm nozzle options
- Suitable for walls, furniture, doors and cabinets
- Corded 220-240V power for consistent operation
- Compact handheld design for controlled spraying
- Filling cup included for easier paint preparation
- Cleaning brush included for simpler maintenance
- Three spray caps shown for application flexibility

Key Features

- High Flow Performance — Delivers up to 800 ml/min to help cover surfaces quickly and keep decorating projects moving.
- Large Paint Tank — The 1300 ml container supports longer spraying sessions with fewer pauses for refilling.
- Nozzle Flexibility — Supplied with 1.8 mm and 2.6 mm nozzle sizes to suit different coating needs and finish requirements.
- Handles Thicker Coatings — Supports materials up to 60 din/sec viscosity, giving you more flexibility across common paint applications.
- Ready for Practical Use — Shown with spray caps, a filling cup and a cleaning brush to assist with setup, use and cleanup.
