

Kseibi 1400W Electric Paint Mixer

Power and control for smoother mixing

Kseibi · 714505

Highlights

- 1400W motor for efficient powered mixing
- Variable no-load speed from 0-750 rpm
- Suitable for paddle diameters up to 140 mm
- M14 tool connection for secure paddle fitting
- Twin-handle design for stable two-handed control
- Large metal paddle helps blend material evenly
- Long shaft keeps the motor unit away from the mix
- Corded design delivers consistent power on the job
- Includes two spanners for fitting and adjustment
- Ideal for paint, adhesives and similar materials

Key Features

- 1400W Mixing Power — The 1400W motor provides the strength needed to mix demanding materials faster and with less effort than manual stirring.
- Variable Speed Control — A no-load speed range of 0-750 rpm helps you work with greater control, whether starting slowly or mixing thoroughly.
- Large Paddle Capacity — Designed to handle a maximum paddle diameter of 140 mm for effective material movement and more consistent blending.
- Secure M14 Connection — The M14 tool connection provides a dependable fitting for the mixing paddle during repeated use.
- Balanced Two-Handle Layout — The wide dual-handle design supports comfort, stability and confident control while mixing heavier or thicker materials.

Specifications

Included accessories 2 spanners
