

Kseibi KHG 20-55 B 2000W Heat Gun with 4 Nozzles

2000W heat for everyday workshop jobs

Kseibi · 714605

Highlights

- 2000W input for fast heat-up and steady performance
- Two temperature settings: 400°C and 600°C
- Dual airflow levels: 250 and 500 l/min
- Includes 4 extra nozzles for targeted applications
- Suitable for stripping paint and varnish
- Useful for heat shrinking, drying and shaping tasks
- Pistol-grip body supports comfortable handling
- Wide base helps when setting the tool down
- Metal front nozzle section shown for heat-focused work
- Runs on 220-240V, 50-60Hz power supply

Key Features

- Two heat settings — Choose between 400°C and 600°C to better match the material, surface and task at hand.
- Selectable airflow — Airflow options of 250 and 500 l/min help balance control and coverage for delicate or broader jobs.
- 4 extra nozzles included — Supplied with multiple nozzles to focus, spread or redirect heat for more precise application.
- 2000W performance — The 2000W motor provides the output needed for common stripping, shrinking, drying and shaping work.
- Work-ready design — The pistol-grip housing and stable base shown in the image support comfortable use around the workshop or site.

Specifications by Variant

Specification	714605
Input voltage	220-240/50-60Hz
Input	2000 W
Temperature	400°C/600°C

Airflow	250/500 l/min
Feature	4 Extra Nozzles
