

Kseibi KCL 2-50 G Combi Laser 2-Line 50m

Clear green lines for faster layout

Kseibi · 715205

Highlights

- 2-line combi laser for level and plumb reference
- 520 green laser type for clear visible lines
- Self-levelling range of $3.5^{\circ} \pm 1^{\circ}$
- 1/4 inch tripod socket for flexible mounting
- Compact housing is easy to position on site
- Simple on-body switch for quick operation
- Laser Class 2 specification
- Works in temperatures from -10°C to $+50^{\circ}\text{C}$
- Ideal for fitting, installation and renovation work
- Suitable for trade use and serious DIY projects

Key Features

- Green 520 laser type — Uses a 520 laser type to project green lines for practical visibility during measuring and marking tasks.
- 2-line layout support — Projects two reference lines to help with common alignment jobs such as levelling, plumbing and positioning.
- Self-levelling setup — A levelling range of $3.5^{\circ} \pm 1^{\circ}$ helps the laser settle quickly for faster setup and less manual adjustment.
- Tripod-compatible base — The 1/4 inch tripod socket allows secure mounting for stable placement and repeatable working heights.
- Jobsite-ready temperature range — Designed to operate from -10°C to $+50^{\circ}\text{C}$, making it suitable for a wide range of working conditions.
