

Kseibi KHP 18-135 C High Pressure Washer 135 Bar 1850W

Compact power for everyday outdoor cleaning

Kseibi · 716220

Highlights

- 135 bar pressure for effective outdoor cleaning
- 1850W motor for dependable electric performance
- Max flow rate of 330 l/h helps rinse away dirt fast
- 5 m hose gives practical reach around the job
- Supports water flow temperatures up to 50 °C
- Compact upright body stores neatly in small spaces
- Integrated detergent bottle for soap-assisted cleaning
- Large wheels help move the washer with less effort
- Trigger gun and lance included and shown onboard
- Suitable for cars, patios, bikes and garden equipment

Key Features

- 135 Bar Cleaning Pressure — Delivers the pressure needed for tackling dirt on vehicles, patios, tools and other exterior surfaces around the home.
- 1850W Electric Motor — Provides solid cleaning performance for regular domestic use while keeping operation simple with electric power.
- 330 l/h Maximum Flow Rate — Combines with the pressure output to help loosen grime and rinse surfaces efficiently during routine cleaning.
- 5 m Hose for Better Reach — Offers useful working distance so you can clean around the area with fewer interruptions to reposition the machine.
- Compact Mobile Design — Slim upright housing, large wheels, onboard cable storage and an integrated detergent bottle support easy handling and storage.
