

Kseibi GEN 3000 Gasoline Generator 2.8/3.0kW

Portable power for work and backup

Kseibi · 716810

Highlights

- 2.8kW rated A.C. output for dependable everyday power
- 3.0kW maximum A.C. output for startup demand
- 220V/50Hz output for standard power applications
- 196cc engine supports portable power on demand
- 4-stroke single-cylinder engine design
- Transistor magneto ignition system
- 15L fuel tank for longer operating sessions
- Wheel-mounted frame for easier transport
- Open frame design helps protect core components
- Front control panel keeps outlets and controls accessible

Key Features

- Strong portable output — Delivers 2.8kW rated and 3.0kW maximum A.C. output for powering tools, equipment and essential applications away from mains electricity.
- 4-stroke 196cc engine — The 196cc single-cylinder gasoline engine is designed for practical, straightforward power generation across work and backup tasks.
- 15L fuel capacity — A 15L fuel tank supports extended operation between refuelling stops, helping you stay productive for longer sessions.
- Accessible control area — The front-mounted control panel groups key controls and power connections in one place for easier operation and monitoring.
- Transport-ready frame — The wheeled open-frame layout and handle structure make the generator easier to move and position on site or around the property.

Specifications

Mobility	Wheel-mounted
Frame type	Open frame

Specifications by Variant

Specification	716810
Rated/Max.A.C.output	2.8 kW/3.0 kW
A.C.Frequency	220 V/50Hz
Engine Type	4 stroke; single cylinder
Ignition System	Transistor magneto
Displacement	196cc
Fuel Tank Capacity	15 L
