

Kseibi 45cc Gasoline Chain Saw 18"

Petrol power for serious cutting jobs

Kseibi · 717125

Highlights

- 45cc gasoline engine for independent outdoor cutting
- 1.8 kW rated output for demanding wood cutting tasks
- 18 inch bar supports longer reach on larger cuts
- 45 cm chain length suits general timber and branch work
- 7000 rpm relevant speed for productive cutting performance
- 3000 rpm idle speed for controlled operation between cuts
- Wraparound front handle aids stable two-handed handling
- Front hand guard adds protection at the cutting position
- Good choice for firewood, pruning and property maintenance
- Petrol design avoids reliance on cords or mains power

Key Features

- 45cc Petrol Engine — The 45cc engine gives you the power needed for routine cutting, log work and heavier branch removal without needing a power outlet.
- 1.8 kW Rated Output — With 1.8 kW of rated output, this saw is built to handle demanding outdoor cutting tasks with confident performance.
- 18 Inch Cutting Setup — The 18 inch, 45 cm chain length provides useful reach for cutting firewood, trimming larger limbs and general timber work.
- Controlled Running Speeds — A relevant speed of 7000 rpm and idle speed of 3000 rpm support a practical balance of cutting performance and control.
- Operator-Focused Handling — The visible wraparound front handle, rear grip and front hand guard are designed to support steady, two-handed use on outdoor jobs.
