

Kseibi 54.6cc Gasoline Chain Saw with 20" Bar

Petrol power for serious cutting jobs

Kseibi · 717135

Highlights

- 54.6cc gasoline engine for demanding outdoor cutting
- 2.2 kW rated output for strong cutting performance
- 20-inch chain length for longer reach and larger cuts
- 7000 rpm relevant speed supports effective cutting action
- 3000 rpm idle speed for stable running between cuts
- Petrol-powered design for cord-free mobility outdoors
- Suitable for firewood, logs and property maintenance
- Front and rear handles help maintain control in use
- Top hand guard adds practical user protection
- Robust body design shown for tough working conditions

Key Features

- **54.6cc Engine Capacity** — The 54.6cc displacement provides the engine size needed for heavier cutting tasks around the yard, farm or work site.
- **2.2 kW Rated Output** — Rated output of 2.2 kW gives the saw the power to tackle timber cutting, firewood preparation and general outdoor jobs.
- **20-Inch Chain Length** — The 50 cm (20 inch) chain length offers useful reach for larger logs and broader cutting applications.
- **7000 rpm Cutting Speed** — A relevant speed of 7000 rpm supports productive cutting performance when working through wood efficiently.
- **Cord-Free Petrol Operation** — Gasoline power lets you work away from power outlets, making it a practical choice for remote and outdoor areas.

Specifications

Bar marking (cm)	18 / 45
