

Kseibi Portable Air Cooler 450W 8000m³/h

Powerful cooling for hardworking spaces

Kseibi · 717945

Highlights

- 8000m³/h airflow for strong air movement
- 450W rated power for dependable cooling output
- Effective coverage for 60-80m² spaces
- Water consumption of 8-13 L for evaporative cooling
- Large water tank supports longer operation
- Portable cabinet design with smooth-rolling castors
- Front grille helps direct broad airflow
- Side cooling pad panels visible for evaporative function
- Top-mounted control panel for easy access
- Ideal for workshops, garages and warehouse areas

Key Features

- High Airflow Performance — Delivers 8000m³/h airflow to help circulate and cool air effectively in busy work environments.
- Covers Larger Work Areas — Designed for effective use across 60-80m², making it suitable for workshops, garages and similar spaces.
- Efficient Evaporative Cooling — Uses water-assisted cooling with a consumption range of 8-13 L to support practical day-to-day operation.
- Portable Floor Unit — Mounted on castors for easier movement, so you can position cooling where people and equipment need it most.
- Simple, Accessible Controls — Top-mounted controls are easy to reach, helping you adjust operation quickly in active work settings.

Specifications

Mobility	Castors
Control position	Top mounted

Specifications by Variant

Specification	717945
Airflow(m3/h)	8000m ³ /H
Rated power	450 W
Water tank Capacity	100 L
Effective Area	60-80m ²
Water consume	8-13 L
