

Kseibi 200L 850W Electric Cement Mixer

200L mixing capacity for busy jobsite work

Kseibi · 718930

Highlights

- 200L tank capacity for larger mixing batches
- 850W electric motor for consistent mixing power
- 29.5r/min drum speed supports even material blending
- 220-240V, 50-60Hz input suits standard power supply
- Large hand wheel helps control drum tipping
- Wheel-mounted frame aids movement around site
- Wide support frame adds stability during use
- Open drum design allows easy loading
- Suitable for concrete, mortar and similar mixes
- High-visibility orange frame stands out on site

Key Features

- 200L Drum Capacity — The 200L tank gives you the volume needed for productive mixing on renovation, masonry and general construction work.
- 850W Electric Motor — An 850W motor delivers dependable power for regular batching without the hassle of manual mixing.
- Steady Drum Speed — With a drum speed of 29.5r/min, the mixer supports uniform blending for more consistent results.
- Controlled Tipping — The large hand wheel makes it easier to tilt the drum smoothly when discharging mixed material.
- Site-Ready Mobility — A wheel-mounted steel frame helps with positioning the mixer where it is needed around the work area.

Specifications

Frame colour	Orange
Drum colour	Dark grey
Mobility	Wheel-mounted

Drum control	Hand wheel tilt
