

Kseibi Junior 180 Suction Spray Gun

Compact control for everyday spray jobs

Kseibi · 751055

Highlights

- Compact suction-feed spray gun for controlled application
- Durable metal cup design shown in the product image
- Pistol-grip handle supports comfortable use
- Trigger control helps manage spray delivery
- Front adjustment assembly supports precise setup
- Suitable for paint and finishing tasks
- Compact body helps reach tighter working areas
- Robust mixed-material construction for regular use
- Available with Matt Finish / Mirror Finish
- Supplied in box packing

Key Features

- Suction-feed design — Draws coating material from the attached cup for straightforward spray application and consistent workflow.
- Metal fluid cup — The image shows a sturdy metal cup built for practical use and dependable paint handling.
- Comfortable pistol grip — Shaped handle design helps provide a secure hold and better control during longer spraying sessions.
- Adjustable front assembly — Front nozzle and collar components are designed to support controlled setup for different finishing tasks.
- Compact workshop format — A manageable size makes the gun easier to handle on detailed areas and general decorating jobs.
