

Kseibi Tornado Washing Gun with Brush

Brush and spray in one tool

Kseibi · 763000

Highlights

- Integrated brush head agitates dirt as you clean
- Aluminum construction for dependable workshop use
- Chrome-plated gun with white spray coating
- Bottle reservoir keeps cleaning solution on hand
- Trigger operation supports controlled application
- US-style connector included in the accessories
- Long neck design helps reach tighter areas
- Suitable for washdown and surface cleaning tasks
- Combines brushing and spraying in one setup
- Compact handheld format for easy handling

Key Features

- Integrated Brush Head — The fitted brush helps loosen grime during washing, so you can clean and agitate surfaces in a single pass.
- Aluminum Body — Made from aluminum for a practical balance of durability and manageable handling during repeated use.
- Protective Surface Finish — Features a chrome-plated gun with white spray coating for a clean, professional look and easier wipe-down after use.
- Bottle Reservoir System — The attached container holds cleaning liquid directly below the gun, helping keep your setup compact and ready to use.
- US-Style Connector Included — Supplied with a US-style connector in the accessories, helping simplify connection to compatible air systems.
