

Kseibi Steel Air Foot Pump

Compact steel inflation power

Kseibi · 812155

Highlights

- Steel construction for dependable everyday use
- Compact 50x120 mm size stores easily
- Foot-operated design leaves hands free
- Built-in analogue gauge for pressure monitoring
- Flexible hose helps reach valves more easily
- Ribbed pedal improves grip underfoot
- Stable bracket frame supports controlled pumping
- Orange barrel with black bracket finish
- Practical for garage, vehicle and workshop tasks
- Manual inflation solution when power is unavailable

Key Features

- Steel Body Construction — Made from steel for a durable, workshop-ready build that stands up to regular manual use.
- Compact Foot Pump Format — The 50x120 mm dimensions make it easy to keep in a car, toolbox, shelf or service area.
- Integrated Pressure Gauge — The built-in analogue gauge lets you check pressure while inflating for better control.
- Flexible Air Hose — A hose connection helps you reach valve positions more comfortably during inflation jobs.
- Textured Pedal and Stable Frame — The ribbed pedal and braced frame support secure footing and steady pumping action.
