

KSEIBI Heavy Duty Steel Wheelbarrow

Steel strength for everyday hauling

Kseibi · 856001

Highlights

- Steel plate tray for durable load carrying
- High quality wheel for smoother movement
- Heavy duty design for garden and site tasks
- Front wheel layout helps balance heavy loads
- Deep tray shape helps contain loose materials
- Suitable for soil, waste, tools and supplies
- Braced steel frame supports everyday use
- Grip-covered handles for steadier handling
- Orange-yellow finish is easy to spot onsite
- Simple, practical design for loading and tipping

Key Features

- **Steel Plate Tray** — The tray is made from steel plate for dependable strength when carrying loose materials, tools and general worksite loads.
- **High Quality Wheel** — Built with a high quality wheel to support smoother rolling and more confident movement across outdoor surfaces.
- **Heavy Duty Construction** — Designed for demanding hauling jobs around the garden, property or construction site where durability matters.
- **Balanced Single-Wheel Design** — The front wheel and support frame help distribute weight for easier steering, lifting and tipping.
- **Comfort Grip Handles** — Handle grips provide a more secure, comfortable hold when pushing, maneuvering and unloading.
