Kseibi · 881555

Highlights

- Steel construction for reliable everyday security
- Digital code lock for controlled access
- Motor-driven opening system for convenient operation
- Compact size fits home, office or retail spaces
- Suitable for cash, documents and small valuables
- Front keypad layout is easy to use
- Textured black finish with a professional look
- Good choice for bedrooms, offices and counters
- Designed for practical, space-saving storage
- Supplied in carton packing

Key Features

- **Steel Body Construction** — Made from steel for a durable, dependable storage solution for valuables and important items.
- **Digital Code Access** — The front keypad allows secure entry using a code, helping limit access to authorised users.
- **Motor Drive Locking** — Equipped with a code and motor drive lock system for convenient day-to-day opening and closing.
- **Compact Storage Format** — Sized at 210x430x360 mm, it offers practical secure storage without demanding too much room.
- **Versatile Placement** — Ideal for use in homes, offices, shops or other spaces where small valuables need organised protection.
