

Kseibi PE Waterproof Leak Repair Tape 0.6mm x 50mm x 1.5m

Fast waterproof sealing when leaks appear

Kseibi · 882255

Highlights

- PE waterproof repair tape for quick sealing tasks
- 0.6 mm thickness for a substantial protective layer
- 5 cm width helps cover cracks, seams and joints
- 1.5 m roll is easy to cut to the length you need
- Flexible construction conforms to uneven surfaces
- Useful for maintenance, patching and preventative sealing
- Black finish blends neatly into many repair applications
- Compact roll stores easily in toolboxes and site kits
- Suitable for fast response to minor leak problems
- Practical choice for workshop, home and jobsite use

Key Features

- PE Waterproof Construction — Made from PE to provide a moisture-blocking layer for repair and sealing applications.
- Thick 0.6 mm Build — The 0.6 mm thickness gives the tape a durable feel for covering damaged or vulnerable areas.
- Convenient Repair Size — With a 5 cm width and 1.5 m length, the roll is practical for small patching and sealing jobs.
- Flexible Application — The tape bends around contours, edges and narrow sections to help achieve better surface coverage.
- Ready for Everyday Maintenance — A useful option for quick repairs, reinforcement of seams and general waterproofing tasks.
