

Kseibi Reflective Fluorescent Yellow Diesel Fuel Danger Vinyl Sticker

Reflective warning that stands out

Kseibi · 882262

Highlights

- Reflective surface helps improve visibility when illuminated
- Fluorescent yellow background draws attention fast
- Bold red Diesel Fuel warning text for clear identification
- Includes flammable hazard symbol for quick recognition
- Vinyl sticker format suits flat surfaces
- Square layout gives a clean, easy-to-place warning sign
- English and Arabic text supports multilingual environments
- Useful for tanks, workshops, vehicles and storage areas
- High-contrast design is easy to spot at a glance
- Helps mark fuel-related hazards clearly and simply

Key Features

- Reflective visibility — The reflective finish helps the warning remain more noticeable when exposed to light, making it useful in low-light work zones.
- Fluorescent color contrast — A bright fluorescent yellow background paired with red graphics creates strong contrast for faster visual recognition.
- Clear hazard communication — The design combines a flammable symbol with prominent Diesel Fuel wording to communicate the risk quickly.
- Durable vinyl format — Vinyl construction provides a practical sticker solution for applying visible warnings to suitable flat surfaces.
- Multilingual message — English and Arabic text help the sign communicate clearly across different users and jobsite environments.
