

## Kseibi PE Warning Tape 5 cm x 100 m

Clear site marking made simple

Kseibi · 882380

### Highlights

- PE warning tape for temporary hazard marking
- 5 cm width for clear, visible boundary lines
- 100 m roll covers larger work and access areas
- Bright red and white design stands out quickly
- Suitable for construction, maintenance and events
- Helps mark restricted and caution zones clearly
- Flexible roll is easy to carry and deploy
- Useful for indoor and general site applications
- Simple solution for traffic and pedestrian guidance
- Compact roll format for quick setup on demand

### Key Features

- High-Visibility Design — The red and white warning pattern is easy to notice, helping draw attention to hazards, restricted areas and temporary boundaries.
- Generous Roll Length — With 100 m on a single roll, you can mark longer runs and larger zones with fewer interruptions during setup.
- Practical 5 cm Width — The 5 cm width provides a visible warning line while keeping the tape lightweight and easy to handle.
- PE Construction — Made from PE, the tape is designed for straightforward temporary marking across a range of site and workplace tasks.
- Versatile Site Use — Ideal for construction areas, maintenance work, warehouse zones, pedestrian guidance and general caution marking.
